## Introduction

Welcome to Unbox Wisdom, where learning meets play and imagination takes center stage!

We are thrilled to introduce our innovative class dedicated to teaching children how to think smart through the captivating world of board games.

Back to the  
Game Board

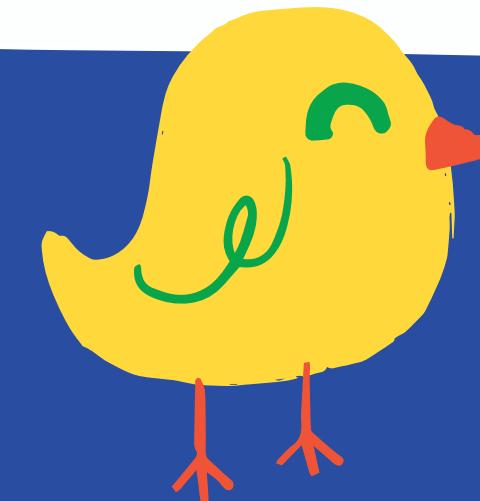

## Purpose

We founded Unbox Wisdom because of the belief that all children should be nurtured in a well-rounded education. And we can achieve that through the power of board games.

Intellectual growth

Problem-solving, logical and strategic thinking

Teamwork and communication

Through Unbox Wisdom, we seek to ignite a spark in each child, unlocking their full potential and instilling in them a love for strategic thinking, problem-solving, and communication between people.

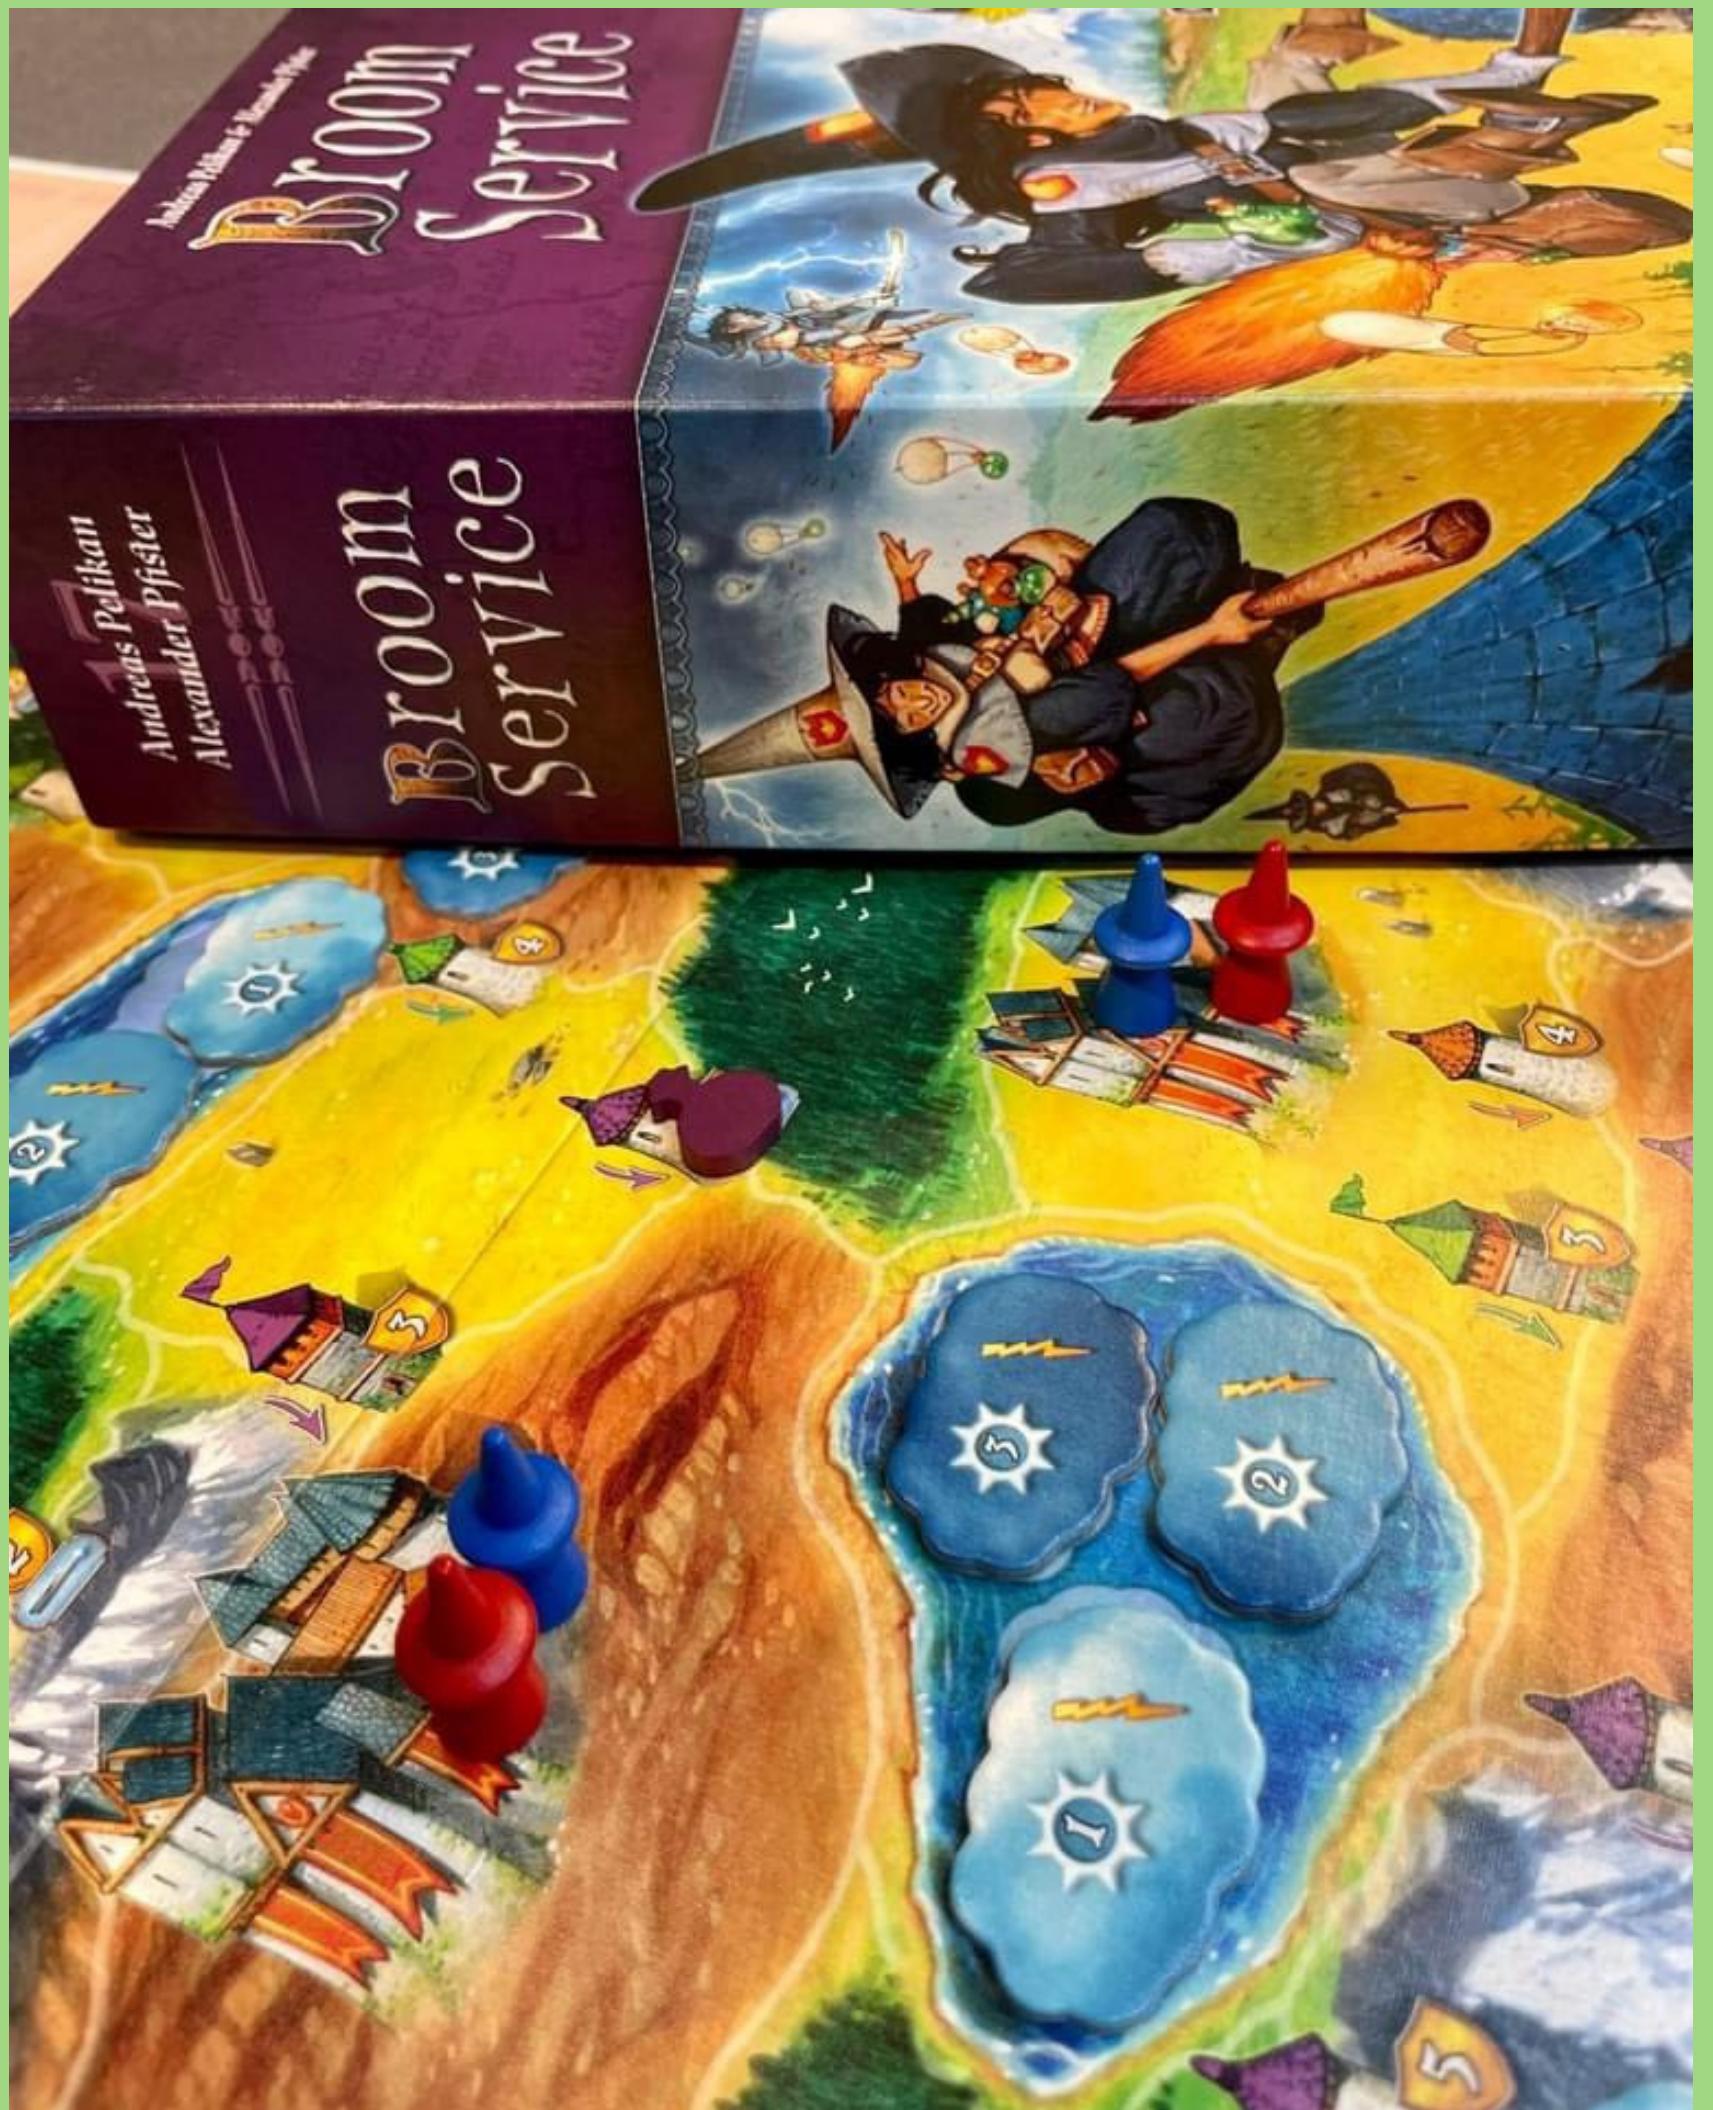

We envision our students becoming confident, independent thinkers who can navigate challenges in their future lives with resilience, and smart thinking while still having fun.

Resources

Our class has a diverse game library, carefully curated to cater to different age groups and cognitive abilities

## So What Do We Do?

Board game class is a fantastic way for kids to learn, have fun, and here is how we do that.

Begin by teaching the fundamentals of board game etiquette, including how to set up a game, take turns, and resolve disputes.

Help kids understand the game and teach them how to calculate their moves.

Emphasize socializing, teamwork, and having fun together. Above all, we cherish the happiness these moments bring as we learn and play.

## Acquired Skills

We also encourage children to think outside of the box by discussing different strategies that can be used in each game, which develops their thinking skills and much more.

Developing Critical Thinking Skills

Improving Social Skills

Boosting Confidence

Promoting Family Bonding

# Why is **CRITICAL THINKING** Important?

 It enhances  
**problem-solving  
ability.**

 Helps to  
improve  
**decision  
making.**

 Refine your  
research skills.

 Polishes your  
creativity.

 Stimulates  
curiosity.

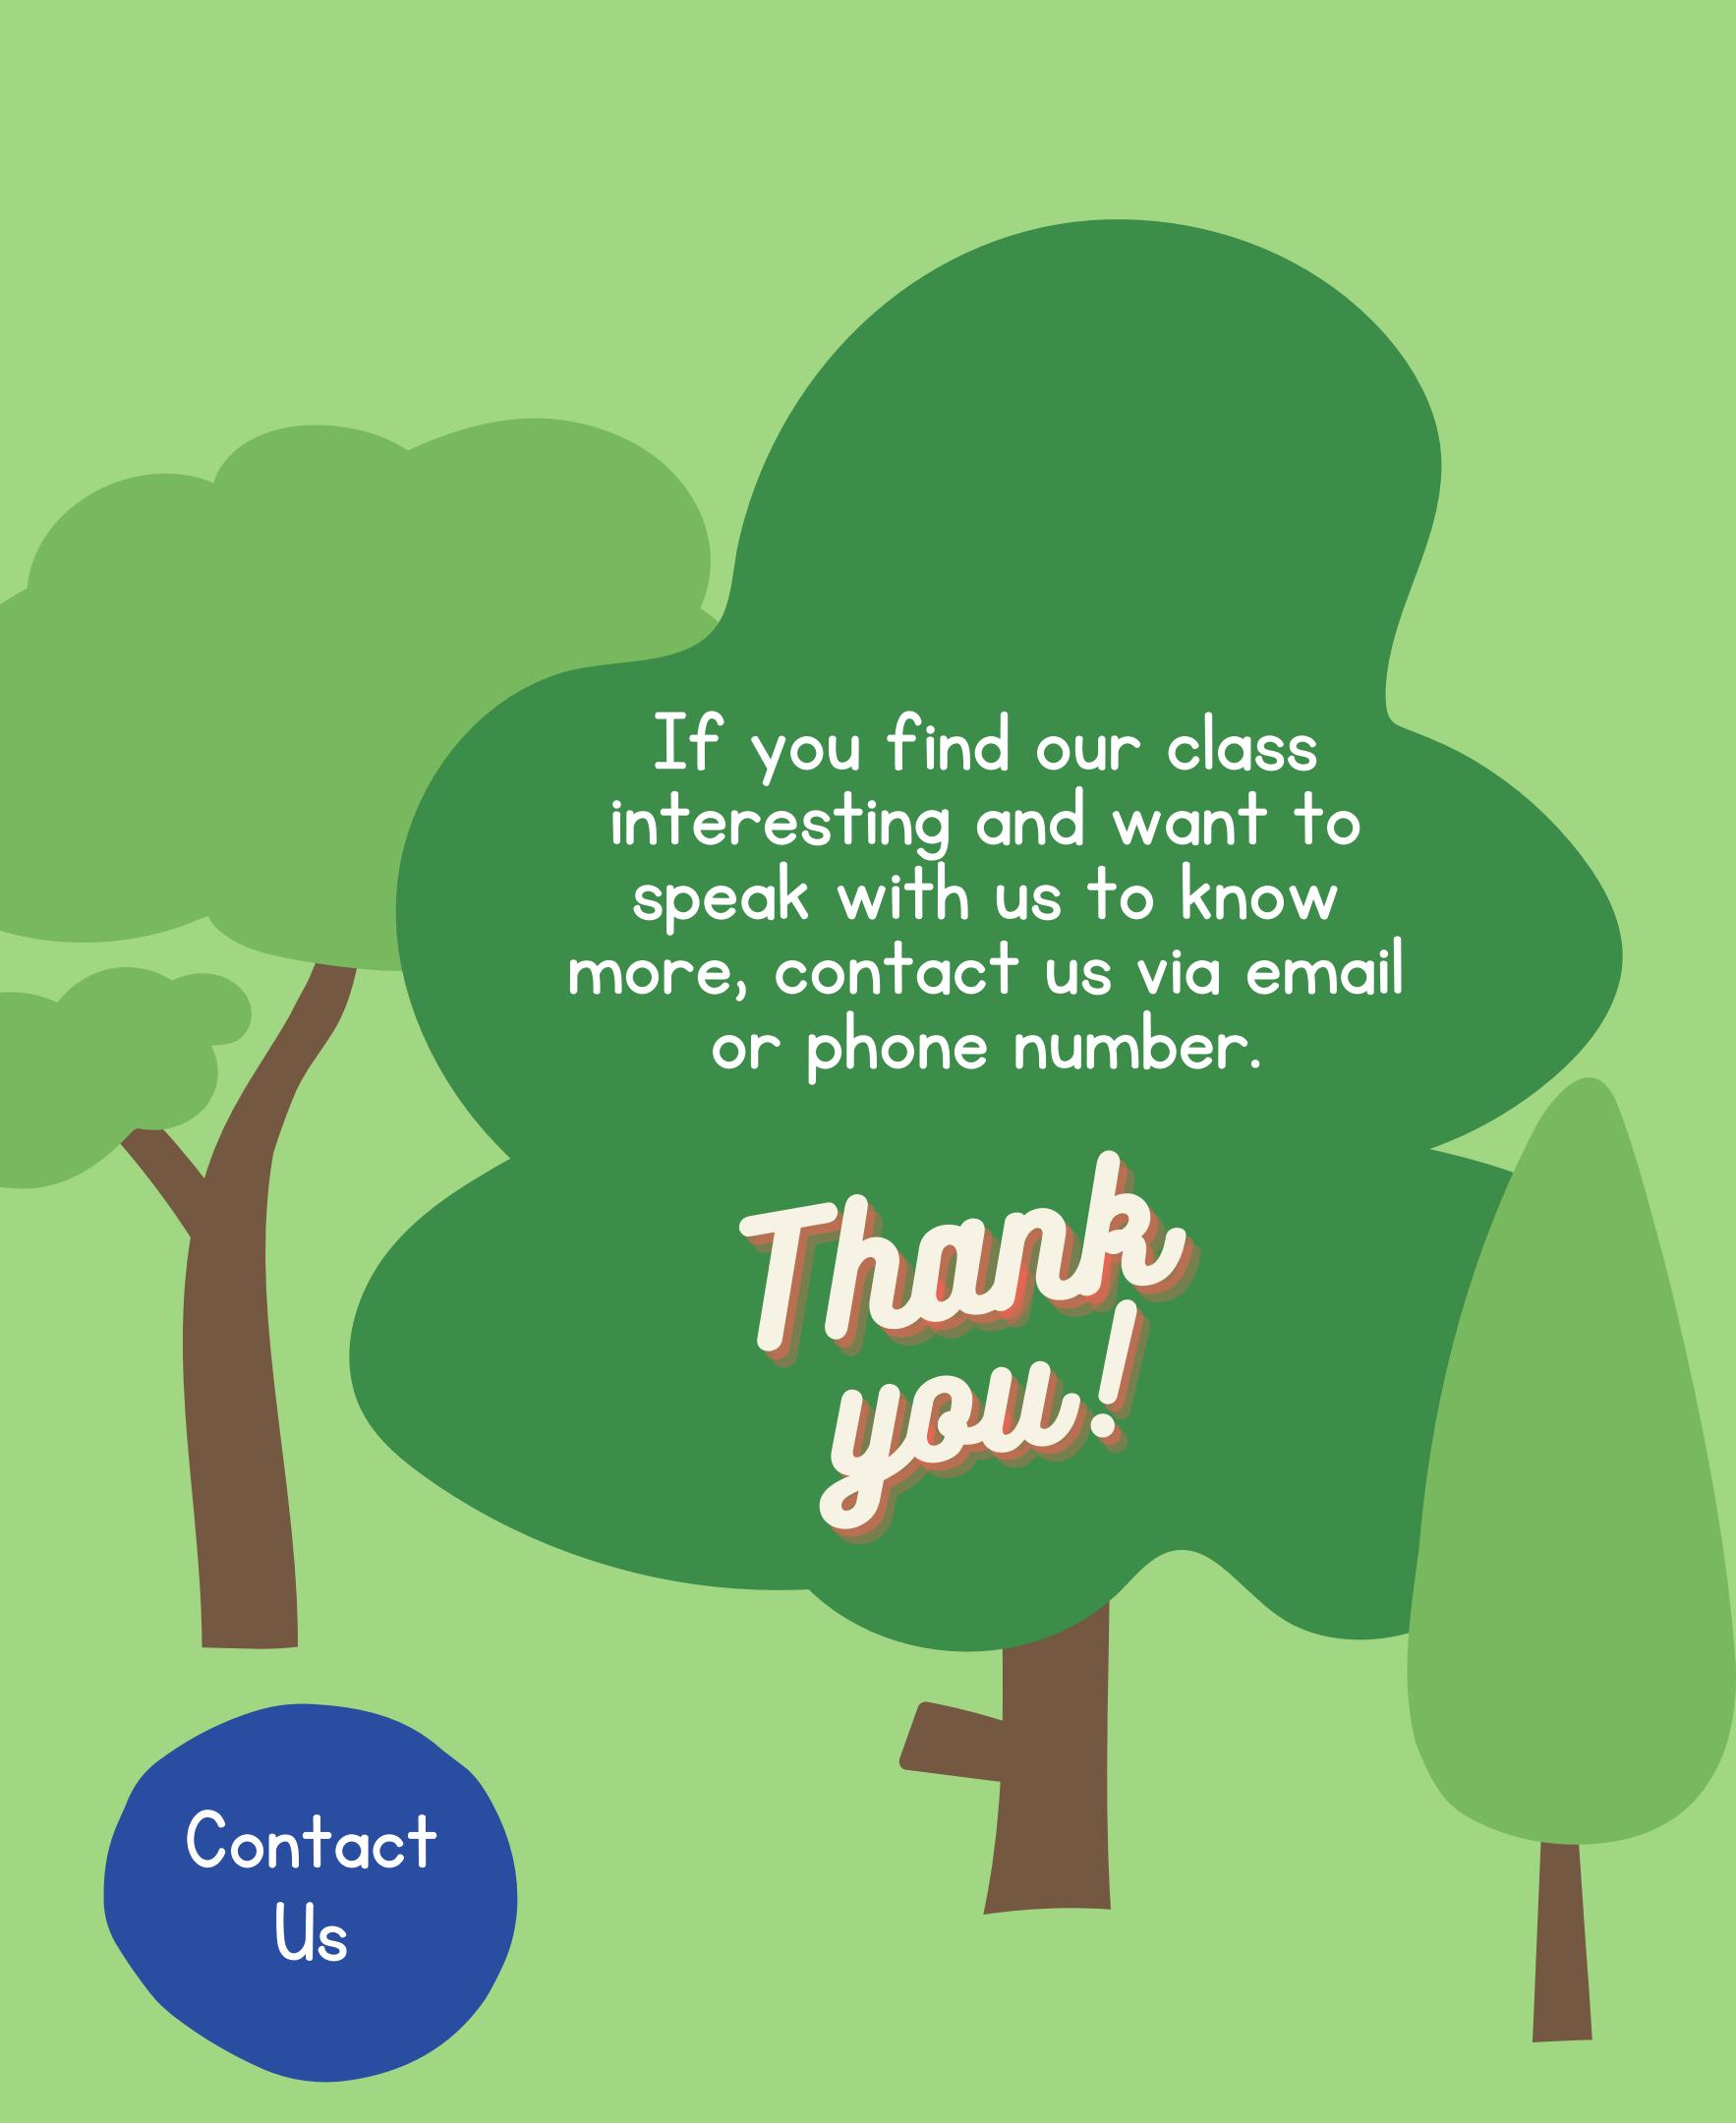

Our class is committed to building strong partnerships within the community. We actively collaborate with schools, community centers, and parent associations to create a supportive network that advocates for holistic education and the importance of cognitive development in children.

If you find our class interesting and want to speak with us to know more, contact us via email or phone number.
